**CRISIS MANAGEMENT PLAN**

The Spearfish School District 40-2 Board of Education recognizes the need for a well-planned emergency and disaster preparedness program. The Crisis Management Plan will provide administrators, faculty members, pupils and all other employed personnel with awareness of the kinds of emergencies that could occur in our schools and the intended response to each.

The Crisis Management Plan will be administered by all school building administrators under the direction of the superintendent of schools. The building administrators are responsible for informing school personnel as to their specific duties in putting each plan into operation.

Each building principal will review these procedures with all staff and faculty in their buildings annually, and periodic drills will be conducted to insure an orderly and safe procedure.
