

# Spearfish District Technology Committee Agenda

December 12, 2023

## Agenda

**Members Present:** Scott Hardesty, Steven Overby, John Mitchell, Tony Mayer, Aaron Norton, Kirk Easton, Don Lyon, Joe Williams, Danielle Ligtenberg, and Brooke McLellan.

### 2024-2025 1:1 Program

- The laptop of choice will be the HP x360 G10. Same model we currently use but newer generation.
- Good news, the quote came in at \$44 a device less than we paid in 2021.

### District Tech Requests

- December 15, 2023 will be the last day to submit requests.

### Technology Inventory

- Yearly technology inventory for all buildings will happen over Christmas break.
- Will inventory staff laptops in the summer when they are turned in for updates.

### ViewSonic Interactive Display

- Decision has been made to move forward with the ViewSonic interactive display to replace defective Smartboards as they fail.
- Steven Overby did a demo of the display to the committee reviewing the interactive tools, wireless connection capabilities, and more.
- Will have a session available during the January in-service day for staff to attend and view product and capabilities.
- Installing 1 ViewSonic display over Christmas break at West, Creekside, MS, and HS.

### Smarter Balance Secure Browser

- Pushed out the latest secure browser client out to computers in October.
- Should now see the icon on student and staff devices who need it for testing.
- Please contact the Help Desk if missing icon on desktop.

### Incident IQ Quick Tickets

- We are now able to create Quick Ticket options on your Incident IQ dashboard for faster ticket requests.
- A few common items have been added such as iPad App requests, Student Teacher Accounts, Smartboard Help, and Infinite Campus Help

### Student Google Sharing Outside of District

- Beginning this school year, students can no longer share Google documents with people outside of our School District Google domain.
- This was implemented for security concerns.

### Video Conferencing Join from Browser

- Just a reminder when joining a scheduled video conferencing tools such as Zoom, Microsoft Teams, WebEx, and such, that you don't need a client installed.
- You can join all these video conferencing platforms via your web browser.

### KnowBe4 Phishing

- November failure percentage was 1.9% (5 users) and December was 2.6% (7 users).
- Good Job! We are still hoping for 0% failures.
- Also, please be aware you are six to ten times more likely to be tricked by SMS phishing (smishing) than traditional email phishing. Be very careful when using your mobile phone!

### Live Streaming School Board Meetings

- We are now live streaming school board meetings. Links to the live stream and archives are active on our School District website under the Board of Education menu.

**Please turn off all classroom technology devices over the Christmas break!**

**Next meeting will be February 13, 2024**
